Introduction

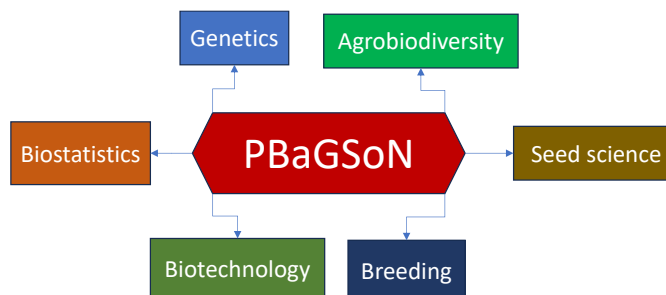

Since its establishment, the Plant Breeding and Genetics Society of Nepal (PBaGSoN) has brought together professionals, institutions, and well-wishers dedicated to advancing the science and practice of genetics, plant breeding, seed science, biotechnology, biostatistics and agrobiodiversity in Nepal. Membership in the Society is not only a recognition of commitment to this field, but also a means of fostering collaboration, knowledge exchange, and professional development among peers. This document presents the general information of the Society's Life, Honorary, Institutional, and General Members from 25 August 2019 to 15 August 2025, covering the period from PBaGSoN's inception through its 6th PBaGSoN Day. It serves as a consolidated reference to acknowledge the individuals and organizations who have contributed to the Society's growth and mission during this time. In addition to member listings, this compilation also includes information on various committees, contact persons, focal persons, contributors, awardees and teams associated with the Society. While this document focuses on general information, detailed profiles of each member need to publish separately to further highlight their backgrounds, achievements, and contributions.

About the Society

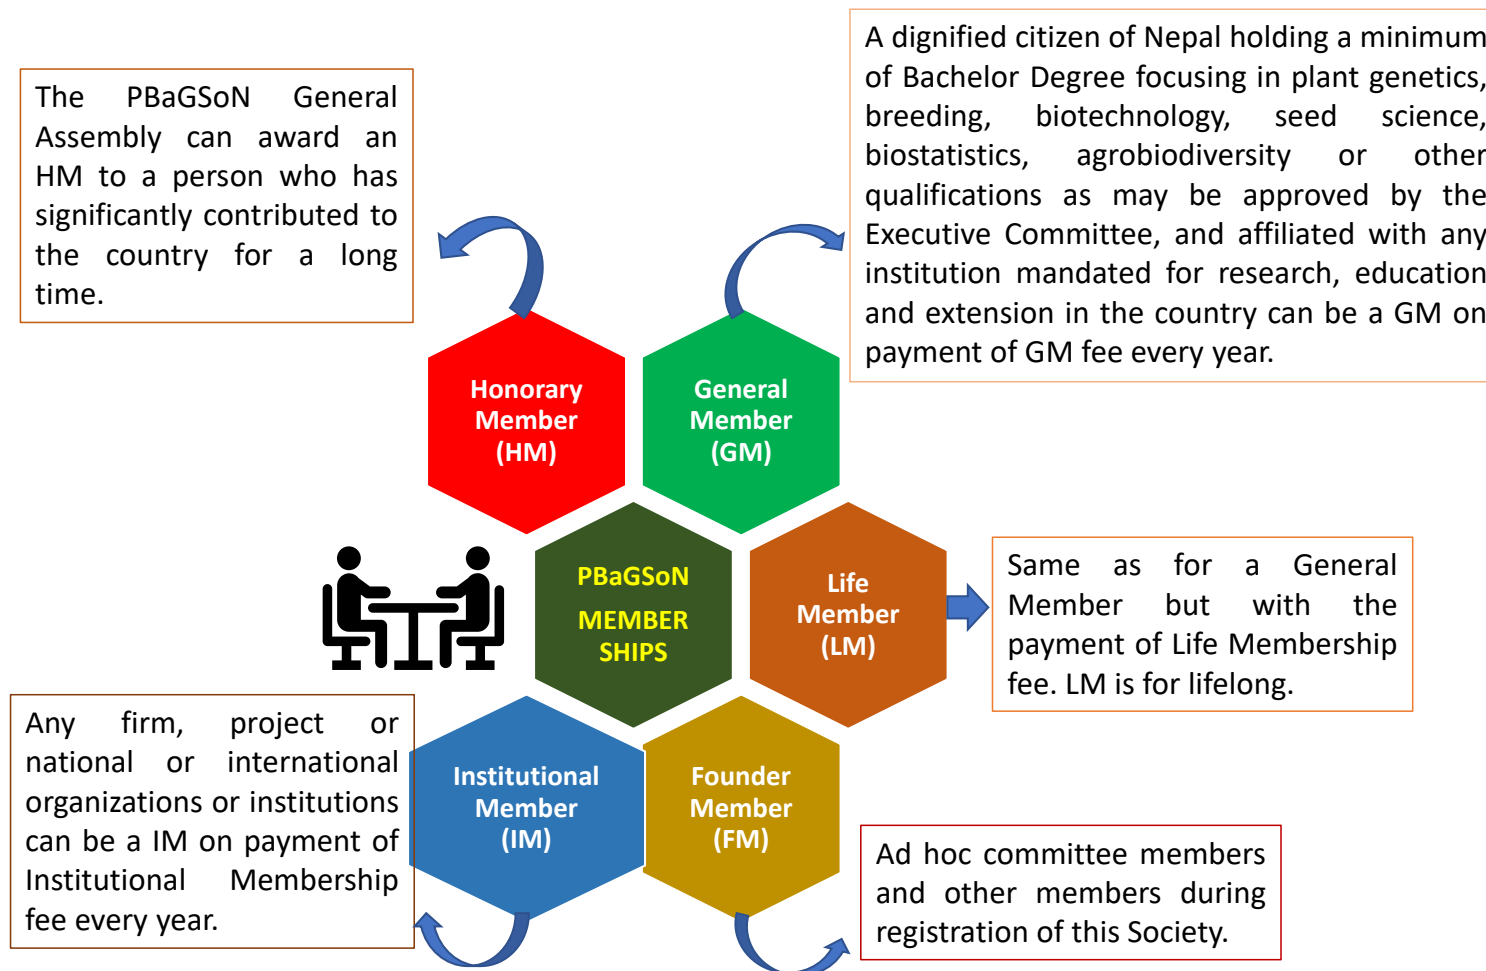

Genetics and breeding stand as the forefront sciences in agriculture and forestry; however, their advancement in Nepal is constrained by limited experts who are dispersed across the country and abroad. The inception of a dedicated society began with the First Plant Breeder Meet (Plant Breeding Seminar) held on January 17, 1999, in Lumle, Kaski, which raised awareness among breeders for the need to form a professional society. Subsequently, the Second Plant Breeders Meet, convened on March 28, 2000, in Lumle, initiated the formation of the Plant Breeding Society. An ad hoc committee, chaired by Dr. Madhusudan Prasad Upadhyay, was established to formalize a professional organization serving as a common platform for breeders in 2058 BS. Later, during the Plant Breeders' Seminar and Plant Breeders' Meet on 2074 BS/09/12 in Khumaltar, a seven-member founding committee, led by Bimal Kumar Baniya was formed. The Constitution (Bidhan) was drafted in 2058 BS, revised in 2062 BS (the name of society was Plant Breeding Society of Nepal) and finalized in 2074 BS. This committee officially registered the Plant Breeding and Genetics Society of Nepal (PBaGSoN) at the District Administration Office, Lalitpur, on 2076 BS/04/30, with registration number 5688. PBaGSoN operates as a non-governmental, non-political, and non-profit organization.
